Performance

MAVRIK MARINE'S PB32 - PROPBOAT

Simplicity & Performance.

The PB32 has a shallow draft, full keel, reverse chine hull with full flow tunnel design, inspired by long-time fisherman, Pete Bjazevich. The raised shear line of its bow makes for dryer cruising. It is suited to a range of fisheries, with a primary focus on Bristol Bay.

TRUSTED PERFORMANCE.

The 13L 730hp MAN has 10 years as a proven, quiet, smooth and 100% purpose built marine engine. It is coupled to a ZF 360A gearbox with trolling valve and "C" pad pto. A 30" wheel means maximum thrust and speed with weight onboard.

REAL SAFETY & USABILITY.

The PB32's true flush deck reduces tripping hazards, injuries and won't snag web. It has wide side decks that make it safer walking to bow.

The well laid out equipment and engine room provide maximum accessibility for all vessel systems. It has 8 separate fish hatch zones and all valves are accessible from the deck.

Design Inspired by: P. Bjazevich

PB32 SPECIFICATIONS

LENGTH	32 ft
BEAM	14 ft, 4 in
DRAFT	35 in
ENGINE	730bhp MAN with ZF360 Gear
PUSPULSION	SS 30" Conventional Prop
DISPLACEMENT	22,500 lbs
FISHOLD CAPACITY	18,000 lbs under the lids
FUEL CAPACITY	380 gal
CREW	4

Standard features include: Keel cooled, Dual hydraulics, Dry exhaust, 3 station electronic controls, Hydraulic anchor winch, Hydraulic 7.5 ton RSW, Hydraulic wash-down, Basic electronics package, Webasto heat, DSG windows and door, Wet head. Fish holds: zoned, Blue Seal epoxy coated, board foam insulation with fiberglass and gel coated.

Standard Options: Engine and HP options, Diesel driven RSW, Hydraulic Bowthruster, Deck gear, Upgraded electronics, Auto pilot, Shore power hook-up, Bottom paint, Diesel stove and heat.
